Private Reports & Fees

About charging fees:

The NHS provides most health care free of charge. However, there are several other services for which fees can be charged. These are mainly for services not covered by the NHS, such as medical reports for insurance companies.

Doctors are involved in a whole range of non-medical work, largely on the basis that they occupy a position of trust within the community and are in a position to verify the accuracy of information. If a GP signs a certificate or completes a report, it is a professional duty that the GP checks the accuracy of such information. This may involve examining the patient's entire medical record.

Certificates and Forms	Who Pays	Fees
Straightforward certificate of fact / To Whom It May Concern (GP Signature)	Patient	£30
